

Committed HD

ME+ Exclusive Technology

- ▶ **Higher Specific Strength**
ME+ technology gives the threads an incredibly superior Specific Strength: perfect protection of the forage over time.

- ▶ **Thicker & Stronger chains**
Novatex ME+ mesh is made of stronger and thicker threads, ensuring higher strength and more ability to withstand repetitive handling.

- ▶ **Better cling on the crops**
The ME+ Tech ensures optimal cling on the crops. Thanks to the wider angle of the weft, the ME net wraps hook up fast and easily.

- ▶ **Mesh with fewer knots**
Knots are the critical points of any thread. Novatex ME+ net-wraps have half the number of knots with respect to standard net wraps.

- ▶ **Eco Friendly**
The proven increase in strength of Novatex ME+ nets has allowed a significant reduction in the use of plastic while maintaining the highest standards available.

COMMITTED HD

Committed HD Wrap sets the new standard for quality, performance, and roll consistency, with our Committed line of net wrap. Proven time and time again, our net wrap is your worry free solution to a well-made bale. Manufactured for use in almost every baler on the market.
