

ShurTwine LSB

LSB Technology Specs

► Length is not just a detail.

Committed AG ensure for its LSB Twines reliable and consistent performance and a longer spool length, which is clearly stated in the label.

► Hold of the knot.

Committed AG LSB Twines ensure flawless results with every kind of knotter.

► UV protected.

All Committed AG LSB Twine are tested for years in the North American conditions in order to guarantee perfect functionality and longer product life span.

► Fully Tested.

Big Baler twine range fully validated by all the Major Baler Producers.

► Perfect shaped spools.

Committed AG twine packs are checked to ensure correct shape, measurements to fit easily into the baler box and a perfectly round core.

► Fibrillation.

LSB Twines by Committed AG are treated with a special fibrillation technique which gives particular softness and knot holding.

Our new lineup of premium HD Large Square Baler Twines will ensure all of your needs are being met in the field. Designed and manufactured to persevere through the toughest conditions and suitable with any baler on the market. Built with your baler in mind, all new ball lengths will keep you running efficiently in to-days' demanding market.
