

ShurTwine

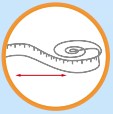

Small square bales - Sisal

ShurTwine medium-sized polypropylene twines for small square bales offer efficient and cost-effective solutions for baling all types of crops.

The medium range of ShurTwine is much appreciated for high strength performance, long runnage and unrivalled knot performance in order to create solid, stackable, and transportable bales every time.

Small Square Twine Technology Specs

► **Length is not just a detail.**

Committed AG ensure for its Small Square Twines reliable and consistent performance and a longer spool length, which is clearly stated in the label.

► **Hold of the knot.**

Committed AG Small Square Twines ensure flawless results with every kind of knotter.

► **UV protected.**

All Committed AG Small Square Twines are tested for years in the North American conditions in order to guarantee perfect functionality and longer product life span.

► **Fully Tested.**

Small Square twine range fully validated by all the Major Baler Producers.

► **Perfect shaped spools.**

Committed AG twine packs are checked to ensure correct shape, measurements to fit easily into the baler box and a perfectly round core.

► **Fibrillation.**

Small Square Twines by Committed AG are treated with a special fibrillation technique which gives particular softness and knot holding.
