

Shurwrap

Shurwrap Benefits

► Full Coverage

Shurwrap guarantees the perfect coverage of the bale.

► Carry Handles

Waterproof sealed integrated packaging to protect the net roll and the core from rain and humidity, with 2 reinforced handles.

► UV protection

Shurwrap has double UV-protection: longer life and reliable performance over time.

► Red end Warning

Every roll has a red 70-meter end-of-roll warning. The operator can therefore plan for the roll change, thus preventing expensive machine down-time.

► Left Right Indicator

The asymmetrical stripe enables you to identify both right and left sides of the bale - a great help when handling and unwrapping it.

ShurWrap™ sets the new standard for quality, performance, and roll consistency, with our line of net wrap. Proven time and time again, our net wrap is your worry-free solution to a well-made bale. Manufactured for use in almost every baler on the market.

Shurwrap

- UV Stabilized
- Less knots per mesh
- Left/Right indicator
- Red End of Roll Indicator
- Roll Cradles
- Roll Handles
- Length Measurement of Each Single Roll

Shurwrap is your worry-free solution to a well-made bale.
